

Please do not allow the Consumer Banking Association to weaken Wisconsin's Do Not Call list. I placed my phone number on the Wisconsin and Nation do not call list. I believe that my telephone is a device that allows me to communicate with family, friends, and companies I choose to do business with. My phone is not for a company to make an intrusion into my home and disturb me with sales pitches for items or services I do not want. Since I have signed up to the Do Not Call lists, my telemarketing calls have diminished to all but the political and charitable intrusions. I wish these could also be controlled. In short, my phone is for me to communicate with family and friends, and for family and friends to contact me. I do not wish to be exposed to telemarketing with a business or its affiliates simply because I have had contact with a business. Please make certain that you put consumers, and not big telemarketers, first. Thank you for your consideration.
